

German - Greek Sustainability Project!

Get to know acorns as a food item and help to promote this untapped resource for a greek project on the Isle of Kea.

The preservation of the Valonia Oaktree and the marketing of its acorns offer the grand chance of a commercial uprising against the economic crisis.

Please try our Acorn Baklava dessert, and you might like to support this initiative and enrich your diet plan with their acorn flour.

The Knottyfood Manufaktur in Wiesbaden, Germany sponsors the Kea acorn project with this Cooperation. The Foodfighters set out to prevent foodwaste and since acorns are a mostly unknown and a completely waived stable food, the foodfighters use their media presents to further acorn consumption, as well as renew and tighten the german-greek friendship.
